## Branches out

### ACTIVITY KIT

# Grow Your Own Sprout!

Do you know how Sprout started out?

All of those leaves and flowers she's growing began as a teeny-tiny seed. Lots of plants start from seeds, and there are many types of seeds, just like there are many types of plants.

## To grow your own plant,

ask a grown-up for some help gathering these materials.

**A container and some soil**—This is where your plant will grow. You can buy these in a store, or you can find them around your home and neighborhood.

**Some seeds**—Seeds come in all shapes and sizes. You can find them in nature, in a store, or even in your kitchen.

**Water**—Every plant is different, but all of them need water to grow healthy and strong, just like you!

## Don't forget to talk to your plant!

Tell it about your day. Where did you go? What did you see?  
Your plant will love to hear all about it.

# Word Scramble

Oh no! These words got all mixed up.  
Can you help Sprout spell them correctly?

# Match the Cards

Have a grown-up cut out the cards, mix them up, and lay them facedown.

Taking turns, players flip over two cards. If the cards match, you have made a pair! Keep those cards. If they don't match, turn them back over and the next player gets a turn. When all the pairs have been found, the player with the most cards wins.
