# TOGETHER, A FOREST Activity Kit

## MAKE A NATURE SKETCH BOOK

Fold about 5-10 sheets of printer paper in half, and staple the spine. Each artist can color in the cover, then take their sketchbook outside to draw. To be extra environmentally friendly, you can reuse paper that's only been used on one side and use the clear side for drawing

Page 2

### Leaf Art

Collect fallen leaves and natural elements (it works better if they're flat) from outside and bring them inside to make art! You can glue the leaves onto the page to make compositions, or use painted leaves to make prints on the page. You can give people and animals wings, or make flower petals with the leaf shapes. Do you have any other ideas?

Pages 3, 4, 5

### Thinking About Nature

Think about the nature nearby and write about it.

# Leaf Art

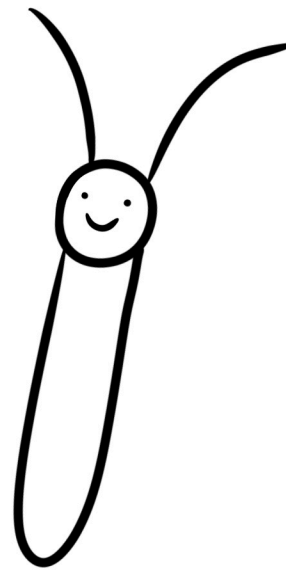

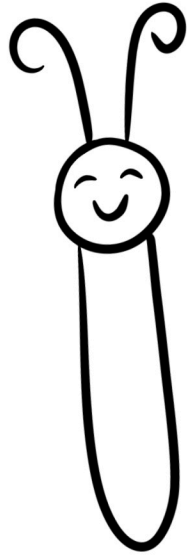

or

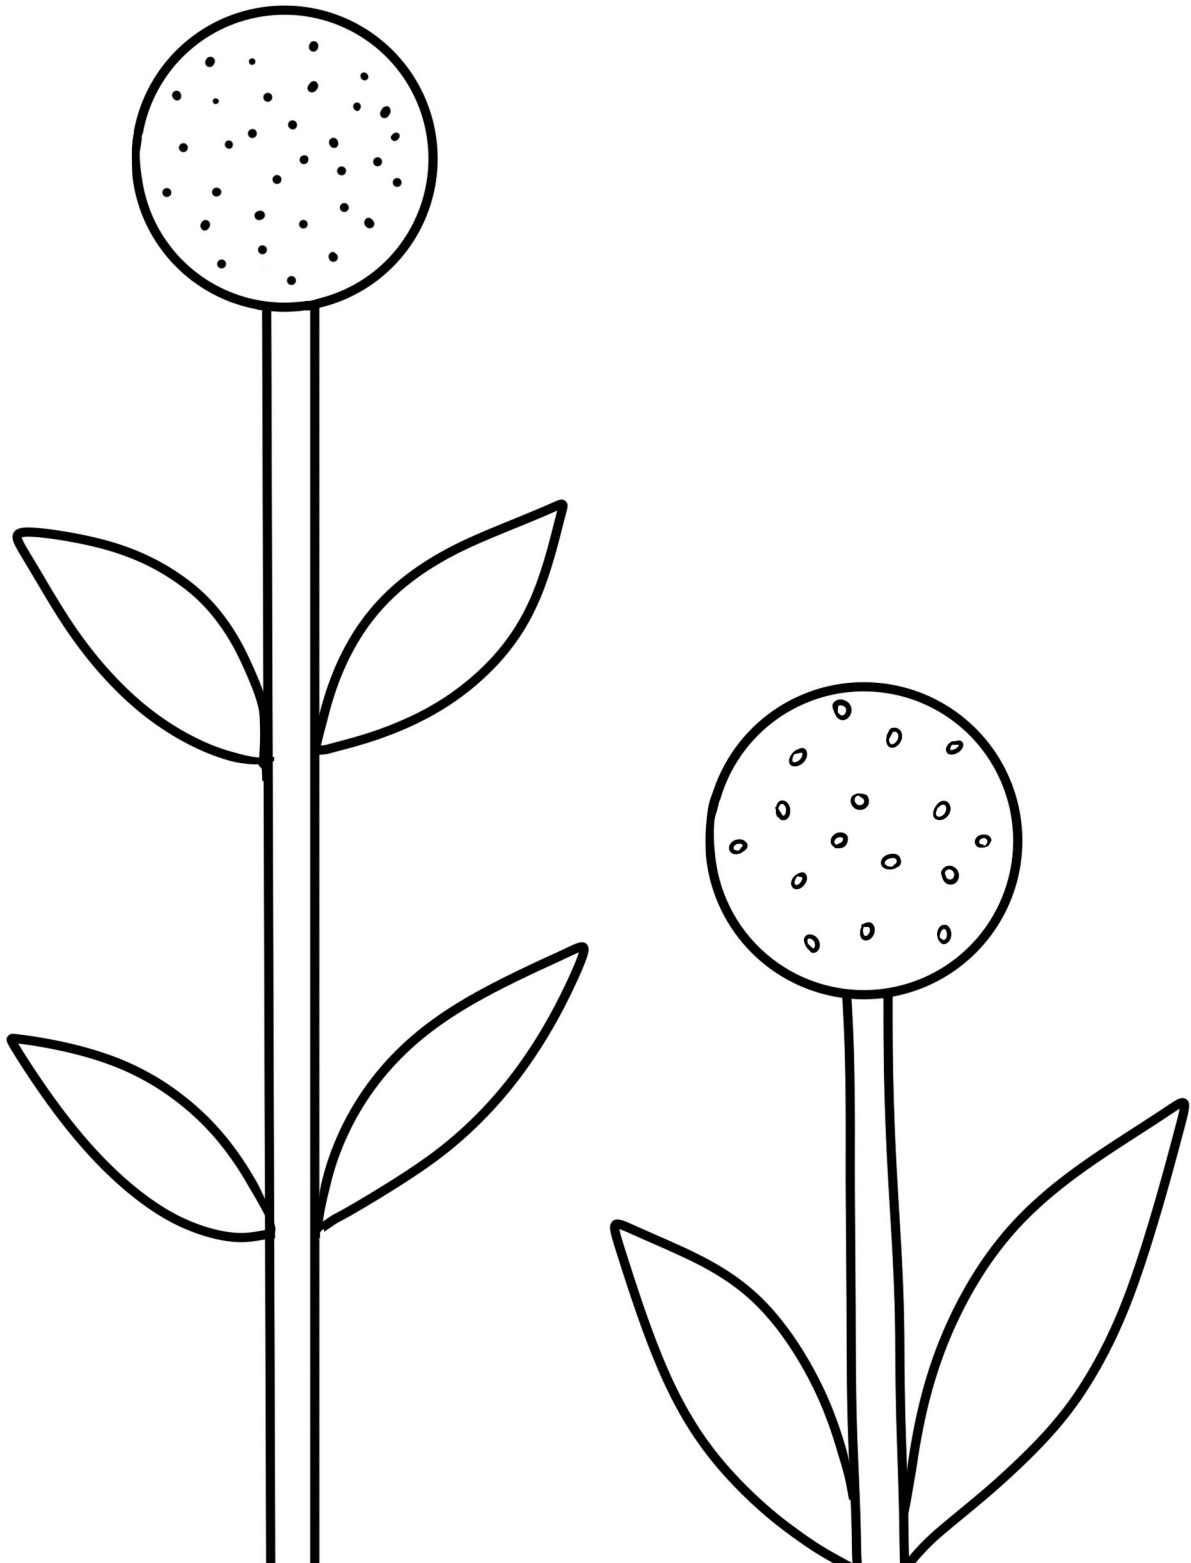

# LEAF BUTTERFLIES

add leaves for wings!

# LEAF FLOWERS

add leaves to make flower petals!

# Thinking about Nature

**Nature** means the parts of the world that are made by the earth, not by people. Plants, animals, rocks, dirt, the landscape, water and the sky are all parts of nature.

It might be hard to see nature if we live somewhere like a city, but there is usually some nature around us. If you don't have any plants near by, use your imagination!

Do you notice any nature nearby? What do you notice?

---

---

What kinds of plants live where you are? If you don't know their names, you can draw them.

---

---

---

What does it feel like to touch the natural things near you? For example, tree bark might be rough, or grass might be slippery.

---

---

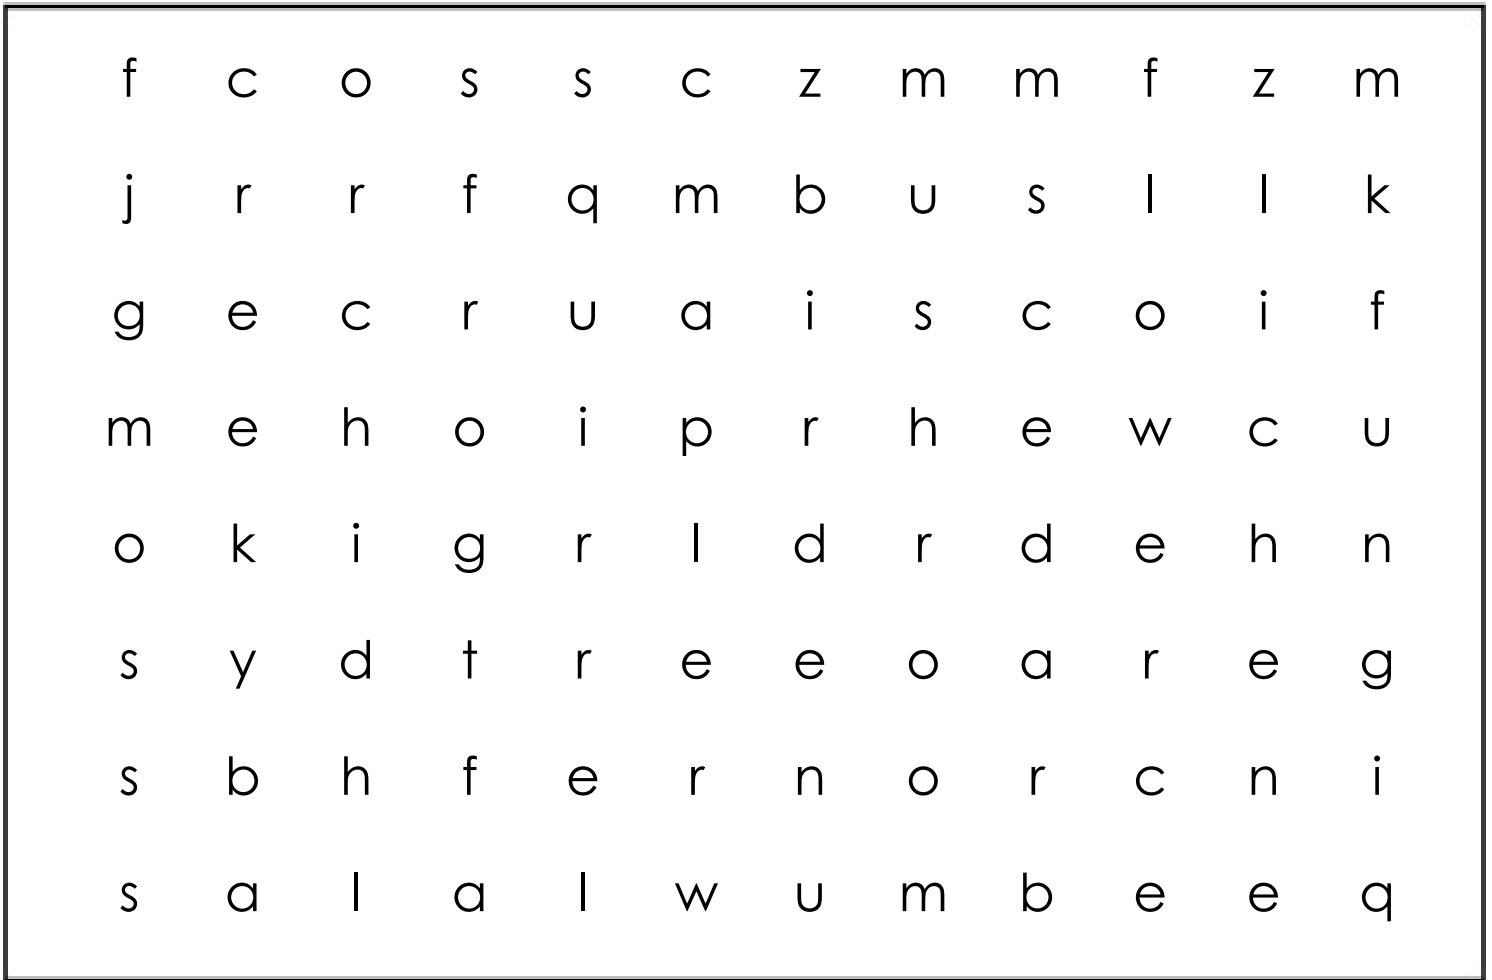

What is your favourite part of nature? What do you like about it?

---

---

---

## Forest Word Search

Find the following words in the puzzle.

Words are hidden → and ↓ .

mushroom

squirrel

lichen

flower

orchid

maple

fungi

creek

cedar

salal

tree

moss

bird

fern

frog

bee
